

Designed for use with Nortel Metrocell equipment.

SP1616-IS-1F STACKABLE CABINET PLATFORM

All ASP platforms are suitable for any undeveloped land or rooftop site applications unless specified otherwise.

This is the first floor of a platform designed to support multiple Metrocell systems where space is minimal. The equipment can be placed along the outsides, facing each other, with a work area in between. These platforms are engineered to stack three high. Optional stairs can be installed one floor at a time with a landing exit to each platform level. Shown here with optional handrails.

Material: Galv. steel
Weight: 5110 lbs.
Dimensions: 16' 0" w x 16' 0" d (overall)
Options: Guardrail, ladder, stairs, telco rack, cable hangers, protection pads
